DISANO

The design floor for healthy living

2016

100% FREE
of PVC and
plasticisers

Welcome to HARO

Company management in
the fourth and fifth generations:
Peter Hamberger and
Dr. Peter M. Hamberger

The success of the HARO brand is no coincidence. Our pioneering role when it comes to trends, our tireless striving for highest quality and our consistently sustainable actions have made us Germany's leading parquet manufacturer. We have used this expertise for the development of our Design Floors. In over 90 countries, the HARO brand stands for floors that fulfil the highest requirements concerning a healthy living environment and a natural look. Just like our Design Floors with almost indistinguishable wood reproductions in spacious formats. Let yourself be inspired by the variety of our product range when choosing a design floor for healthy living.

SOFT

The SilentSense surface creates a soft step and a feeling that is warm to the touch. Thanks to the additional ElastoTec layer, DISANO Classic and DISANO Pro provide a pleasantly soft walking feeling and even more elasticity. It protects the floor from dents and penetrating moisture while ensuring improved stability.

WARM TO THE TOUCH

The use of carefully selected, healthy materials -structured in multiple layers- is what makes DISANO flooring so warm and pleasant to the touch.

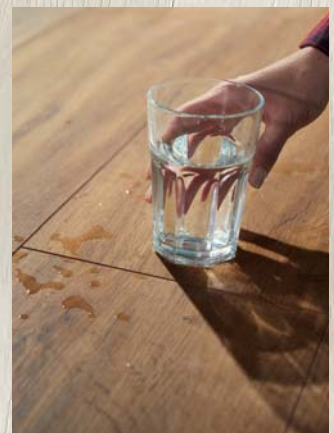

DURABLE

DISANO by HARO is incredibly durable, even when exposed to intensive wear and tear, for example in entry areas or when used in commercial applications.

EASY TO CLEAN

With our clean & green care series, the regular, efficient and gentle care of DISANO Design Floors is child's play.

RESISTANT TO WATER

The DISANO Pro series is perfect for bathrooms, kitchens and all areas of living that make a completely waterproof flooring necessary.

100 % FREE
of PVC and
plasticisers

Design Floor – the trend floor

Design floors are the current trend. They combine the positive characteristics of parquet and laminate floors. They are pleasantly soft, warm to the touch, durable, easy to clean and quiet - in addition, our floors create a healthy living environment. They are free of PVC, plasticisers and phtalates. This is why they were certified with the Blue Angel and the eco label.

Three series – a variety of application areas

DISANO Life – The Easy One

New styles and a particularly spacious format create a room atmosphere with an impressive look. The SilentSense surface makes the floor particularly durable and easy to maintain.

8 x 235 x 1800 mm
(5/16" x 9 1/4" x 70 7/8")
(Thickness x Width x
Length)

DISANO Classic – The Convenient One

Thanks to the additional ElastoTec layer, DISANO Classic provides a pleasantly soft walking feeling. The Hydro-Resist coreboard makes the design floor particularly resistant to moisture. The exclusive long plank format with its particularly authentic styles creates an impressive look. Additionally, several styles are also available as our waterproof design floor DISANO Classic Aqua, which is suitable for damp areas if glued down (see range overview page 33).

9.3 x 235 x 2035 mm
(3/8" x 9 1/4" x 80 1/8")
(Thickness x Width x
Length)

DISANO Pro – The Tough One

The design floor for healthy living for glue-down installation shows its strengths in commercial as well as residential applications with special demands, such as bathrooms or heavily used entry areas. It is waterproof and particularly hard-wearing. Reproductions of natural wood styles combined with the long plank format add a special touch to every room. Additionally, a selection is also available in the Bravo 4VM format, 155 x 900 mm. It is also easier to install.

2 x 248 x 1800 mm
(3/32" x 9 3/4" x 70 7/8")
2 x 155 x 900 mm
(3/32" x 6 3/32" x 35 7/16")
(Thickness x Width x
Length)

SUBTLE OAK STYLES CREATE OASES OF RELAXATION

DISANO Oak White textured shows its strength in the bedroom by its balanced colour and white shimmer. A calming floor thanks to its harmonious look.

SOFTWOOD DESIGN: NATURALLY WILD, FASHIONABLY TAMED

Softwood scores with its unique naturalness and creates a rustic ambience. Our trendsetter Western Pine stands for expressive naturalness with a highly modern look. It leaves room for a creative mixture of styles when furnishing the room and does not get boring – even after years.

DISANO Classic
Plank 1-Strip XL 4V
WILD OAK
textured

A MODERN INTERPRETATION OF PURE NATURE

Our Wild Oak style makes a light kitchen look more elegant and is very impressive when combined with light kitchen furniture and straight lines.

NATURAL WILDNESS – MASTERFULLY TAMED

Holm Oak Creme is characterised by its strong natural expression. The creme shade creates a fresh and lively look, especially in hallways with artificial lighting.

DISANO Classic
Plank 1-Strip XL 4V
OAK BLACK*
textured

HERE, NATURE IS PUT IN THE
LIMELIGHT IN A WONDERFULLY
RELAXED MANNER

Our natural oak styles have a lighter colouring and soften the oak's slightly rough touch. Oak Riva authentic is particularly expressive thanks to its slightly limewashed pores that are delicately emphasised. It creates an overall harmonious impression and offers room to be creative when it comes to furniture.

Simple installation, perfectly matched accessories and easy care

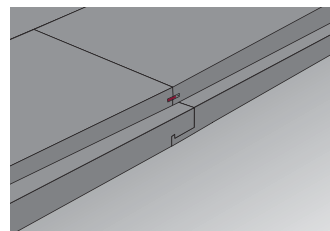

INSTALLATION OF DISANO Life, DISANO Classic, DISANO Classic Aqua

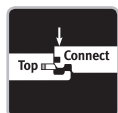

Angle in

Press down

Done

PROBABLY THE WORLD'S EASIEST INSTALLATION SYSTEM: TOP CONNECT

All those who have always wanted to install their own design floor but have never dared to can now get the real hands-on experience. With Top Connect, which is possibly the world's easiest

installation system, the most beautiful floor designs can be created very simply and with an extraordinary stability. The boards are angled in at the long sides and interlocked at the short sides

with a small amount of pressure. The floor fits perfectly and is ready to be "lived on" immediately. And it is just as easy to deinstall when you move.

The French VOC label certifies that DISANO by HARO is completely non-hazardous.

The Blue Angel proves the environmental compatibility of DISANO by HARO.

With its certification, the UL ECO INSTITUT proves that DISANO by HARO meets the strictest regulations concerning the emission of harmful substances.

CLEAN & GREEN ACTIVE

For deep cleaning of heavy-traffic design flooring and resilient floor coverings in areas with a high degree of wear and tear.

FLOOR CARE

CLEAN & GREEN AQUA SHIELD

For the durable refurbishing and maintenance of your Design Floor.

What distinguishes the design floor for healthy living DISANO from common vinyl floors?

HEALTHY LIVING ENVIRONMENT

Vinyl floor is an alternative name for PVC floor. They contain plasticisers, which are hazardous to health. DISANO, in contrast to vinyl floors, is completely non-hazardous and therefore certified with the Blue Angel and the Eco Label.

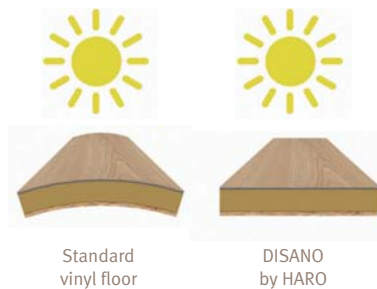

COLOUR CHANGES

The colours of vinyl floors can change significantly under the influence of UV light. DISANO keeps its colour throughout its entire lifetime.

DIMENSIONAL STABILITY

Vinyl floors react to warmth, e.g. through exposure to sunlight, by bending. DISANO, by contrast, remains dimensionally stable.

COLD FLOW

Furniture and chair legs cause dents in the floor. On vinyl floors, these dents remain and do not form back. After moving the furniture, these indentations remain visible. This is referred to as "cold flow". DISANO, by contrast, is pressure-resistant and can even withstand heavy furniture.

If a subfloor shows slight surface irregularities, the vinyl floor comes to rest around these elevated areas due to cold flow. This makes them clearly visible and perceptible. Because of the way it is constructed, DISANO easily smoothes out these irregularities of the floor.

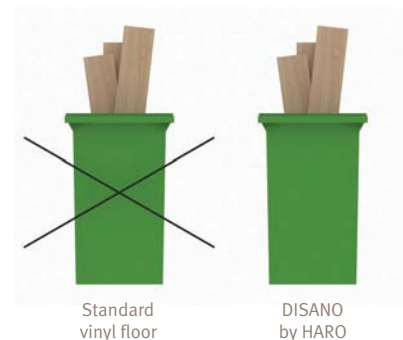

EMBRITTLING

The plasticisers in vinyl floors lose their effectiveness in the course of time. This can cause the floors to become stiff and brittle.

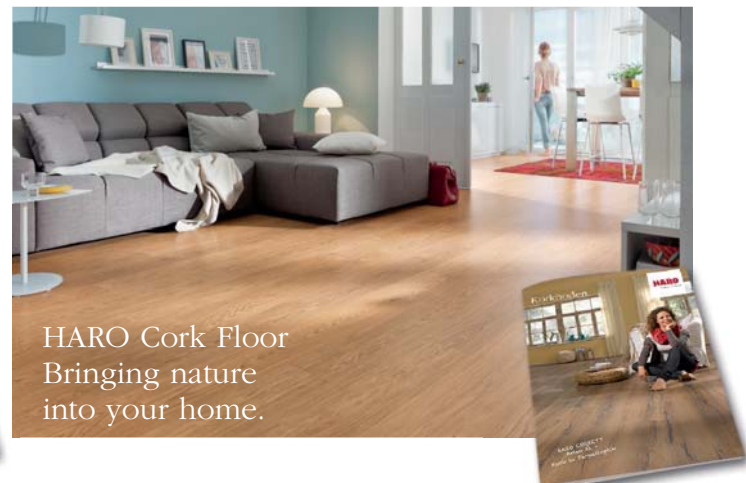

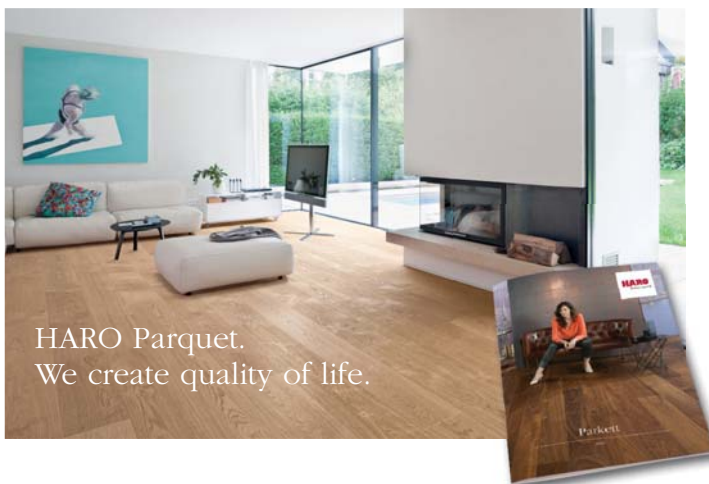

DISPOSAL

Vinyl floor (e.g. residues or trimmings after installation) must not be disposed of as household waste. DISANO can be disposed of in household waste without problems.

A focus on quality –
not only when it comes to DISANO

What enabled us to develop the DISANO Design Floors was our knowledge of what tasteful, elegant floors should look like, and in which formats they are particularly impressive. This expertise results from the passion with which we have been developing parquet floors for many decades. This passion for wood has made us Germany's leading parquet manufacturer.

You can find our floor configurator under www.haro.com. You can combine any floor with the selectable rooms. This way, you can find out which floor best suits your interior design.
